Subject: Abatement of Division Directive, Pelican Point Rock Products, Pelican Point Mine, M/049/011, Utah County, Utah

Dear Mr. Heaton:

On June 8, 2004, the Division issued a Division Directive to Pelican Rock Products for failing to supply the requested maps to the Division. On August 19, 2003, the Division requested site maps be furnished to the Division for the purposes of documenting site conditions for the 5-year bond escalation review. After repeated requests and the failure on the part of Pelican Point Rock Products to furnish the requested information, a Division Directive was issued.

During a meeting at the site on June 7, 2005, the requested map of the site was supplied to the Division. The action required to mitigate the Division Directive is now satisfied; therefore, this Division Directive is hereby abated.

Please keep us informed of your progress on the revision of the permit for the Pelican Point Mine. If you have any remaining questions regarding this letter, please contact me at (801) 538-5325, or Doug Jensen at 538-5382. Thank you for taking the necessary action to abate the Division Directive.

Sincerely,

Daron R. Haddock
Permit Supervisor
Minerals Regulatory Program
